The BPS[®] C2 Product Family

Outstanding Performance
in All Its Variety

1,050

BANKNOTES PER MINUTE

Each BPS C2 system combines speed with precision. They always achieve a consistent speed during counting, sorting, authentication, and even when reading serial numbers.

Performance runs in the family

G+D Currency Technology is one of the world's leading providers of high-quality product and system solutions for banknote processing. Outstanding quality ensures high durability, a long service life, and maximum security, while still keeping processing costs low.

In the compact table-top system segment, the BPS C2 product family offers superior productivity, the utmost security, and a compact, attractive design with a very high level of user-friendliness. In addition, the choice three variants – as well as a wide range of diverse and custom configurations – enables the systems in the BPS C2 family to fulfill the specific requirements that will take the efficiency of your cash process to a completely new level.

TAILORED TO MEET YOUR REQUIREMENTS

Whether you use them in a cash center, a casino or the back office of a bank branch, find out now which BPS C2 system is the best choice for increasing your productivity and preparing you for future challenges in banknote processing.

ONE PLATFORM – NUMEROUS ADVANTAGES

The new BPS C2 family is a platform from which you can choose precisely the system you need, tailored to the required application, and optimized for your business. The system family features not only design excellence but also unparalleled user-friendliness.

FUTUREPROOF IMPLEMENTATION

G+D Currency Technology is raising the benchmark in this class with a new generation of sensors, and the BPS C2's high throughput means that productivity can be increased considerably. The use of state-of-the-art technologies and G+D's many years of experience in the table-top sector make all the difference: the foundations for your future in banknote processing.

The basis of productivity is availability

With our needs-oriented specialist advice and fully comprehensive service portfolio, G+D customers benefit from full productivity and smooth operation of systems – for the entire life of the products.

G+D CONSULTING SERVICES: FOR SOLUTIONS THAT ARE THE PERFECT FIT

Our experts analyze individual needs, existing processes, special requirements, and the system environment. Based on this analysis, they work together with you to develop precisely the right solution to meet your needs.

G+D SERVICE: ALWAYS AT YOUR SIDE, WHENEVER AND WHEREVER YOU NEED IT

Our dense, global service network ensures that customers can rely on our support at all times. Your systems are kept up-to-date with frequent updates and upgrades – which can even boost productivity after installation.

G+D REMOTE SERVICE: THE FASTEST SOLUTIONS VIA REMOTE ACCESS

Use G+D remote services to optimize the uptime of your systems. A large proportion of system failures can be immediately responded to and resolved using G+D remote access. Our service specialists identify the issue and put it right in an instant.
