Gunnebo CM SafeDeposit DF4 Family

A flexible, compact cash deposit solution

SafeDeposit DF4 is the ideal solution for medium cash volume retailers and businesses where security and process optimisation matter the most.

DF4 is run on modular ZEN D software giving you total control over your entire network of cash management devices. ZEN enhances your cash handling processes through remote monitoring, business analytics, data sharing and multi-device connectivity.

The range is equipped with the Gunnebo Cash Management Note Reader which accurately performs the validation and authentication of banknotes at a speed of 100 notes per minute.

Thanks to service access from the top, the DF4 gives you flexible placement options in the back office or under the counter. As well as standard free-fall deposit, the range includes semi-stacked deposit and bag deposit models.

Gunnebo CM SafeDeposit DF4 Family

A flexible, compact cash deposit solution
Manually managing the flow of currency into business is a high-cost, low-return task which also represents a significant security risk.

The SafeDeposit DF4 range automates the process allowing you to streamline cash flow, improve productivity, and eliminate time-consuming manual procedures all while ensuring a secure environment for your customers and employees.

Retail solution with CIT features
- Ideal solution for medium cash volume retailers and businesses where security and process optimisation matter the most.
- DF4 standard model has service access from the top for flexible placement in the back office or under the counter.
- Multiple deposit option within range: DF4 with free fall deposit, DF4 SS for stacked banknotes and the DF4 LARGE for deposit in a sustainable canvas bag.

- New Gunnebo Cash Management Note Reader performs accurate validation and authentication of banknotes at up to 100 notes per minute.
- Multicurrency handles up to six currencies in the same transaction.
- Serial number recognition.
- 200 dpi screen for transmissive and reflective images, two infrared wavelengths and UV images.
- Certified by the European Central Bank and Gold Certification from the Bank of England.

Modular ZEN software

Gunnebo Cash Management ZEN D Software

Gunnebo Cash Management software platform for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
ZEN D connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, ZEN adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of ZEN D, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of ZEN Suite modules, including Balance for your finances and Enhance for your service operations.
